

Competitor Analysis: Who Ships What, Who Pays

Every platform surveyed for this proposal, what it ships, and how it makes money. No commentary, no recommendation: the record only.

Prepared for **MAHE, discovery discussion (review panel)**

Date **14 September 2026**

Scope **18 platforms • 5 market segments**

1. Global Consumer Wellness

D2C subscription, content-led.

Calm *US · Global*

Ships. Guided meditation, Sleep Stories, breathwork, Daily Calm, mood check-ins, masterclasses, music, kids' content.

Business model. D2C freemium subscription. Premium \$69.99–79.99/yr; Family \$99.99/yr for six seats; lifetime \$499.99. Calm Business sells seats to employers.

Headspace *US · Global*

Ships. Meditation, mindfulness courses, sleepcasts, focus music, movement; coaching and therapy inside enterprise tiers post-Ginger merger.

Business model. D2C subscription (\$12.99/mo, \$69.99/yr) plus enterprise and health-plan contracts priced per employee per month.

Wysa *India-origin · Global*

Ships. AI CBT conversational agent, 150+ self-help tools, DBT and mindfulness exercises, an SOS toolkit (grounding exercises, personal safety plan, local helplines), a human coach add-on, and a clinician-side Digital Referral Assistant.

Business model. B2B2C. Over 80% of revenue comes from businesses and health plans; the free anonymous tier is the funnel. Premium ~\$74.99/yr; coaching from \$19.99/session; enterprise custom-priced.

2. Teletherapy Marketplaces

D2C subscription, transitioning to payer-funded.

BetterHelp *US · Teladoc*

Ships. Matched licensed therapist, unlimited messaging, weekly live video or phone, journaling, group webinars.

Business model. D2C subscription marketplace. \$70–100/week, billed four-weekly (\$280–400/mo); 10–40% financial aid including a student discount. Revenue fell 11% year-on-year in Q1 2025; acquired UpLift to move in-network with insurers.

Talkspace *US · NASDAQ: TALK*

Ships. Messaging therapy, live video sessions, psychiatry, live workshops, teen and couples programmes.

Business model. \$69/wk messaging, \$99/wk video and messaging, \$109/wk with workshops; ~\$10 average copay when insurance covers it. Payer business up 33% in Q1 2025; five consecutive profitable quarters; FY2025 guidance \$220–235M.

3. Campus-Native Platforms

B2B, per-student licence.

TimelyCare *US • ~500 campuses*

Ships. TalkNow 24/7 on-demand emotional support, scheduled counselling, psychiatry, health coaching, basic medical care, peer community, self-guided content, faculty referral tools. Acquired Alongside (May 2026) for clinician-powered AI coaching and risk detection.

Business model. Institution pays; TimelyCare supplies the entire clinical network. Three contract shapes: 3% population cap, 10% cap with unused-visit rollover, or all-students per-student-per-year. ~500 institutions, 3 million students; \$60M Series C. Public anchor: James Madison University, \$435,600 in year one of a three-year deal.

Uwill *US*

Ships. Therapist choice and matching in minutes, video, phone, chat and message, a 24/7 crisis line, wellness content.

Business model. Institution-paid licence, typically hours-based or per-student. \$30M Series A from Education Growth Partners, \$35.2M total raised.

Mantra Health *US • 52+ campuses*

Ships. An explicit stepped-care ladder: self-care tools, a DBT-based life-skills programme, peer support via a Togetherall partnership, wellness coaching, teletherapy, telepsychiatry, and 24/7 crisis. A Collaboration Portal gives campus clinicians visibility into referrals and care plans.

Business model. Institution-paid, closed-loop referral between the campus counselling centre and Mantra's clinicians. ~500,000 students across 52+ campuses including Penn State, MIT and Miami Dade; \$22M Series A plus extension.

Togetherall *UK / US*

Ships. 24/7 anonymous, clinically moderated peer community, self-assessments, wellbeing courses on depression, sleep and anxiety, goal tracking, and signposting into each university's own resources.

Business model. Institution-paid annual licence, sold as a lower-cost tier that absorbs mild-to-moderate need. Deployed at Baylor, Boston University, Buffalo, Iowa, UW-Madison, UT El Paso and Pittsburgh.

YOU at College *US • Grit Digital Health*

Ships. A personalised wellbeing portal across Succeed, Thrive and Matter domains, self-assessments, and a content engine surfacing that campus's own resources.

Business model. Pure engagement and content SaaS, institution-paid, no clinicians involved. \$0.75–\$3.00 per student per year; 30+ campuses, 300,000+ students.

SilverCloud by Amwell *Ireland / UK / US*

Ships. Guided internet-delivered CBT programmes with a human supporter model and built-in outcome measurement.

Business model. Enterprise licence to health systems, employers and universities. Deployed across the NHS and HSE.

4. Indian Clinical Platforms

Freemium D2C, plus B2B hybrid.

YourDOST *India*

Ships. 24/7 chat, audio and video with counsellors, anonymity-first onboarding, self-help content, wellness assessments, on-campus counsellor visits, workshops and webinars, a telephonic crisis helpline, and admin dashboards for the institution.

Business model. Subscription B2B to campuses and corporates; free at the point of use for the student. Deployed at IIT Bombay, IIT Kharagpur, IIT (ISM) Dhanbad, IIT Goa, NIT Rourkela, NIT Kurukshetra and others. FY24 revenue ₹19.46 Cr; total funding \$1.71M across three rounds.

Amaha (ex-InnerHour) *India*

Ships. 500+ self-help tools, six structured courses (depression, anxiety, sleep, stress, anger, happiness), mood tracking, guided breathwork and visualisation, sleep tools, small-group Mental Health Circles, a 50,000-member community, plus therapy and psychiatry online and at physical centres.

Business model. Freemium D2C funnel converting into paid clinical services, with a B2B arm. Free self-help; therapy ~₹1,500–3,000+/session; psychiatry billed separately. 6M+ app users, 220k+ sessions delivered; FY24 revenue ₹22.76 Cr.

Lissun *India*

Ships. App plus physical centres, hospital partnerships, and a corporate arm; strong child and family focus.

Business model. Omnichannel: digital front end, physical clinics, institutional contracts. \$10.7M raised across 7 rounds from 87 investors; \$2.5M pre-Series A led by RPSG Capital Ventures; acquired US startup Being Cares Inc. in July 2025.

Rocket Health *India*

Ships. Online therapy and psychiatry; after a first consultation the user gets a personalised care roadmap and chooses single sessions or bundles.

Business model. Low-price D2C teletherapy, founded 2021. Sessions from ₹1,000.

Mpower *India · Aditya Birla Education Trust*

Ships. Centres of excellence, foundation clinics in Mumbai and Virar, a helpline, and school and college outreach programmes.

Business model. Philanthropically backed clinical services and outreach. Founded 2016 by Neerja Birla; stated goal of impacting 150 million lives by 2030.

1to1help *India · EAP incumbent*

Ships. Employee Assistance Programme: counselling, crisis response, wellbeing content, manager training, organisational reporting.

Business model. Annual contract priced per covered life, varying by organisation size, feature set and service level. Founded 2001; 800+ corporates, 65+ cities, 2.7M employees covered.

5. Public Infrastructure

State-funded, free, mandated.

Tele-MANAS · 14416 *Government of India*

Ships. A two-tier service: trained counsellors provide first-level emotional support, psychosocial counselling and referral; psychiatrists and clinical psychologists are reachable at tier two through eSanjeevani. Free, 24×7, in 20 languages.

Business model. Fully state-funded. Not a commercial competitor. Launched 10 October 2022; 29.82 lakh calls handled as of November 2025 (12.33 lakh in 2025 alone), across 53 cells.
